BESCHREIBUNG

The pixx location is a state-of-the-art top location in beautiful Hamburg-Ottensen: the perfect place for professional film and photo productions as well as events of all kinds, crazy music videos and unlimited creativity!

Meetings, team- / company events, exhibitions, workshops, seminars, cooking classes, dinners or cooking evenings and much more. - everything you imagine under your event and comes to your mind. Just ask us, we try to realize it for and with you.

Our large fully equipped food and show kitchen with flexible cooking island is suitable for professional food or cooking productions! Here you have everything you need at your disposal.

A friendly location team will welcome you on site. Your productions and events are possible 24 / 7 - Monday to Sunday, around the clock.

Scenic, service-oriented & creative
The ultra-modern studio is located in a factory built over a hundred years ago in the trendy Ottensen district - just a five-minute walk from Altona station. Where the iconic comic figure Werner was drawn back then, today people are shooting, filming and producing like crazy! The works created at pixx can be found in well-known fashion magazines, product catalogues of well-known brands or on popular video platforms.
In the offices above the location there are also rentable "working spaces" in a super nice creative community of 12 people, from where you can do your work in peace and if necessary in great exchange.

And action!
With a ceiling height of 3.6 meters, the photo studio is perfect for professional shoots and film productions. The cove is 6 meters wide, 7 meters deep and will be prepared and freshly painted by the pixx team according to your ideas. The styling areas can of course be used as well.
The experienced in-house full-service agency "pixx production" will support you during the production in the form of planning, art buying, realization or post-production/digital support as well as on-set image editing - depending on your needs. You need HMI or flash for your shooting? No problem - through our cooperation with Calumet, 711, MBF, ProlightRent, Knackscharf etc. we organize everything you need and you also get discounts! In addition, the spatial and technical infrastructure is service-oriented and allows ground-level delivery for props and equipment.

Everything inside!
If you are planning a food shooting, you can of course use the Cooking Place of the pixx location.

Here you will find an ultra-modern, flexible kitchen island, four hot plates, an oven as well as a fridge and a fully automatic coffee machine.
For team meetings around the shoot and the production, there are tables for a total of 30 people! In addition, a Sonos Play 5 or Bose box, free WLAN (1000 Mbit/s), modular ceiling lighting and a cosy sofa corner can be used. Catering for your teams can be booked - if desired also vegan and/or vegetarian!
