Cooking in kitchen possible

DESCRIPTION

Conceived and designed by the "Art Conceptor" John Paul Lubliner, the apartment can be defined as a total work of art combining architecture, design, technology, eco-friendly and art. The space is perched atop Montmartre in the heart of the 18th arrondissement and is situated just 200m from the metro station Abbesses. The highlight of the space has to be the breathtaking panoramic views it offers.

The 3 floor apartment is fully equipped with modern amenities and stylish interior design including a magnificent glass staircase used as a sundial, a suspended table, futuristic radiators, video projector and screen. These features mean that the space can serve perfectly as an workshop location or training venue with a unique and luxury atmosphere. The venue can fit up to 50 people for receptions and 20 in a theatre seating plan.

At Spacebase, every workshop gets matched to one of our experts who'll help bring your idea to life. If you need help please get in touch:
