Koken in keuken mogelijk

BESCHRIJVING

If you rent this conference room in Dresden-Ockerwitz, you have the choice of which rooms you need. It is a holiday home whose modern construction with its many windows catches the eye at first sight. This consists of guest rooms for up to ten people and a living area, which is furnished to make a conference room. This includes a long dining or meeting table that dominates the centre of the room. Here you will also find a kitchen-living room, which you may use without restriction if you rent the workshop room. In the back area there is a comfortable sofa corner and two of the walls are completely made of glass and flood the room with daylight. Heavy curtains can be used to darken the windows if necessary. If you rent the entire building for a standing reception, for example, you can plan with around 50 guests.

Here you can carry out all imaginable projects. A meeting or conference lasting several days is possible and foreign visitors can stay overnight at the same time. But short meetings and discussions are also conceivable without further ado. You will benefit from the cosy atmosphere and relaxed ambience when you rent these conference rooms. Furthermore, the most important equipment is at your disposal. Especially flipchart and beamer can be borrowed for a small fee to make your presentations more clearly arranged. Of course, you will receive a screen together with the projector so that you can create a clearly visible image. WLAN is also standard here.

Self-catering is no problem if you rent the spacious workshop room. Alternatively, you can also book catering or just have drinks provided. Should you decide to have a full meal, a comprehensive buffet will be prepared. For example, smaller celebrations are possible if you rent the conference room.

This property is located just outside Dresden city centre in an extremely quiet residential area. Nevertheless, there is a connection to the public network. The bus stop Ockerwitz is only a few hundred metres away and the journey time to the city centre and the main railway station is manageable. In addition, traffic is kept within limits and travelling to the airport by car is no problem. Since you can use free parking spaces when you rent these conference rooms, there are no obstacles in the way.

Bij Spacebase , wordt elke workshop gekoppeld aan een van onze experts die je idee tot leven zullen brengen. Neem contact op als u hulp nodig heeft:
